WORK EXPERIENCE (LATEST)

FREELANCE DEVELOPER (2004 – CURRENT)

Since 2004 I work as IT consultant and developer for independents, organizations, companies.

My applications were mostly network oriented and range from intranet (network security), back end (newsletter server, web crawler, backup system, document sharing system, contact management system) and front end (newspaper, web sites).

CTO – LOOKYGAMES (JULY 2013 – JANUARY 2014)

Mobile gaming startup. With Looky Games I've participated to the summer acceleration program of Luiss EnLabs incubator. I was in charge of the back end development for a massive multiplayer game, using NodeJS and WebSocket. I've also studied feasibility of HTML5 mobile apps.

CEO – FANMOUS (2013)

Startup that involved people promoting their favorite brands. As co-founder, I was involved in every aspect of the company: project, developing, marketing, brand...

INDEPENDENT CONTRACTOR – FARMACIA 360 S.C.A.R.L. (2008 – 2013)

I was in charge of server and network data security. I've also developed and maintained a web based video promotion software, for internal pharmacies advertising.
